

## Monster Fleece Lovey Blankets

First I cut a 10.5 x 12 piece of the fleece fabric. I created holes to crochet through with a skip stitch blade and a ruler as a guide. Holes should be made about a 1/2 inch from the edge. It is

also helpful to cut the corners into rounded corners so it will lay down flat when you crochet the edge.

I purchase my skip stitch blade from the [Project Linus website](#) and you will need a [Fiskars 45mm Contour Rotary Cutter](#) which I purchased from Amazon.

Here is the crochet pattern I came up. Remember that when following the patterns below, you can easily adapt them to make the head and limbs bigger by increasing the chain length and row length. Feel free to use this as a loose guide.

- Size H (5.0) crochet hook

2 SC in same stitch and in each stitch around (12 SC)

Join with white and chain 1

You can use a black button for the pupil or for smaller eyes, use [12mm Solid Black Eyes](#)

**Teeth:**

Chain4,

Slip Stitch in 2nd chain from hook, SC in next, HDC in next

Leave long tail for sewing on.

**Horns:**

Magic Ring, chain 1

Tip: If you leave a long tail when starting your Magic ring, you can use it to stuff the horn.

*Please Note: This pattern uses buttons and has small parts which could potentially become choking hazards if they come off. Please use caution if making this for a baby or if giving to a baby. If I was to make this for an infant, I would not use buttons and use black yarn instead.*
