

Squared Off Border (intermediate)

Row 1: Knit around the stitches just picked up.

Note: From here on this border is worked vertically.

Cast on 4 stitches at the end of your last needle.

Row 2: K3, knit the 4th st together with the last stitch from Row 1.

Row 3: Sl1, k3.

Row 4: K3, knit the 4th st together with the next stitch from Row 1.

Row 5: Sl1, k3. With a thumb cast on, add 3 more stitches to your needle (7 sts total).

Row 6: K6, knit the 7th st together with the next stitch from Row 1.

Rows 7, 9, 11, 13: Sl1, k6.

Rows 8, 10, 12: K6, knitting the 7th st together with the next st from Row 1.

Row 14: Bind off first 3 sts, k2 then knit the last together with the next st from Row 1.

Row 15: Sl1, k3.

Repeat rows 2-15 for pattern.

Knitting a Border Around Fleece

FOR ALL METHODS BELOW:

Make holes in the fleece with a medium Skip-Stitch blade 1" down from edge of fleece.

Crocheted Foundation (mostly used for crocheted edges but can also be used to pick up knit stitches.)

A very good Youtube video was made on the crocheted foundation by the North and Central Chicagoland chapter of Project Linus. You can find it by going to Youtube.com and searching for: Crocheted Edge Fleece Blanket

Establish your row around, then proceed with "Begin picking up stitches for knitting" below.

Blanket Stitch Foundation

Sew a blanket stitch around the edge with a yarn needle and yarn of your choice.

You can find a nice tutorial on this by searching Youtube for "Blanket Stitch Tutorial Treasure". It will be the first one that comes up. After making the blanket stitches, proceed with "Begin pickup stitches for knitting" below.

Begin picking up stitches for knitting:

Crocheted foundation: Pick up knit stitches under each of the foundation stitches, alternating yarnovers from the front of the fleece then the back. Continue around, using more circular needles as necessary to accommodate all the stitches picked up.

Blanket Stitch foundation: Pick up two stitches for each blanket stitch by yarning over from the front then the back of the stitch.

Finish border in pattern of your choice. Suggestion: a simple k2, p2 pattern for 4 or 5 rows looks good on a boy's blanket. Bind off in pattern.

Purely Knit Border Method

1. Folding edge halfway down as you go, and holding yarn in back of blanket edge, pick up yarn through the first skip-stitch hole with knitting needle. Bring yarn up to height of the edge.
2. YO from the back of the fleece. Make sure the loops on your needle(s) are brought up to the top of the blanket edge. Don't make your stitches too tight! They will get snug when you knit your first row.

Repeat steps 1 and 2 until all stitches have been picked up.

Continue knitting the border of your choice. Suggestion: Create a border that won't roll by alternating knit and purl rows.

Another, more advanced border suggestion is on the back of this page.
